# Oakview Perkin Triple R

## Simmental Bull Sale

1:00 PM • Monday, March 15, 2021

### Welcome from Transcon

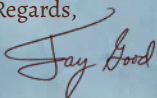

I would like to start off by thanking Todd & Danna Collins of Oakview Simmentals for offering to host the bull sale. This is a fairly big change to the infrastructure of the original sale format and a very generous move. So now let's talk about their bulls! This a big pen, size wise & relative to the Simmental breed in Manitoba. In this very impressive pen, quality sire groups made from exclusive semen packages and the strong Oakview bull battery are apparent. They have done a great job at Oakview on the their Fullblood herd which has a base from some great cows in the breed, such as "Pixie" and "Fern". Cow families and top herdbulls blended within from polled and horned genetics summarizes the Oakview Fullblood herd. The Red Simmental group I believe are the strongest ever from Oakview. There are some great brother-acts with a ton of quality. I sincerely admire this young family for so many of their virtues, they work hard and are as congenial as they come to mention a couple.

The Perkin Land & Cattle crew, as the name would suggest, are large mixed farmers that shoot to do the best job whether raising the next set of calves or the next crop to harvest. Relative to this sale, are the cattle of course! They study the Black & Red Simmental genetics intensely and keep an open mind as to how they can constantly improve themselves. They do a nice job developing their bulls, never overdone, just right!

I always like the Triple R Cattle! They have a real nice bullpen again this year. The "Brooks" sons are easy to find. Not to wander off the point, but I also want to give "kudos" to the gang @ Triple R for the fantastic set of bred heifers they sold at the Pembina Triangle sale last November. The Triple R cattle are gaining a lot of momentum on reputation for cattle that always work for their new owners.

Please feel free to call on any of us at Transcon to assist you with any information, appraisals or bidding/buying assistance that may be required in your absence.

Regards,

Jaymes E. (Jay) Good

Darren Paget.....403-323-3985  
Glenn Norton.....780-542-0634  
Cody Haney.....403-559-8809

### Sale Staff

Auctioneer.....Ward Cutler  
Ringmen.....Cody Haney • Mark Stock

### Accommodations

Best Western Morden....1-204-822-6116  
Super 8 Morden.....1-204-822-2003

### Viewing

All bulls will be available for viewing at Oakview Simmentals starting on Friday March 12th

### Videos

Videos will be available at  
[www.transconlivestock.com](http://www.transconlivestock.com) and  
[www.dlms.ca](http://www.dlms.ca)

Oakview Simmentals can be found on Google Maps. Search "Oakview Simmentals" for directions to the farm!

**OR**

From corner of Hwy 3 and PR 240  
Go 2 miles east to road 38. North 3  
miles to road 16. Turn east for 1/4  
mile, farm is on the south side.

### Delivery

- Delivery will be made at sellers earliest convenience working to get bulls to your yard within MB, to central points within Canada and to the nearest USA border crossing.
- Bulls can be wintered free to charge until April 1. After April 1, there will be a charge of \$3/day. Bulls returned to the farm can be picked up at the buyer's convenience.
- Bulls that are wintered by the consignors must be insured by the purchaser.

### Lunch served at 12:00 PM

Sponsored by Masterfeeds

### Semen

Oakview Simmentals, Triple R Simmentals and Perkin Land & Cattle Co. reserve the right to collect semen on any bull sold through this sale for in herd use only. This semen will be collected at the buyers convenience and seller's expense.

### American Purchases

Our sales are conducted in Canadian funds. The US exchange rate will be available at the settlement desk. Upon successful purchase of an animal, the consignors will assist with the necessary documentation, health exams, brokerage and US custom charges necessary to export your animal to the US. An additional fee of \$300 USD per animal will be charged for this service, and is due at time of settlement. Trucking is not included in this amount.

### Visa or MasterCard Payments

There is a 3% administration fee on all Visa or MasterCard purchases applied to the buyer's invoice.

**Bring your trailer and take your purchases home sale day and take \$75 off your total purchase.**

With restrictions starting at last year's sale, over the past 12 months we have adjusted to what hopefully is not the new norm. First of all, we would like to thank Oakview Simmentals for taking on the momentous task of hosting the sale - we appreciate the people we partner with in the sale, 3 groups with a common goal.

We decided that with moving the sale to the east we should give our customers a designated day to view them at our farm. We have decided to host an open house on February 28, from 2-5pm. The bulls will be on display in their working clothes and we look forward to visiting with many of you at the farm. All attendees will be entered into a draw for a \$500 sale credit to be used on any PLCC bull at the sale.

The bull pen consists of groups of bulls from our herdsires as well as a group from IPU Bentley, who is a black baldy bull that we felt would really complement our genetics. At 2 months of age, the calves really blew us away.

Our newest herdsire, Lethal Dose, is a dark red son of Wheatland Kill Switch. His calves have lots of performance, they're good haired and the right kind of style we love. A highlight will be his son, PERKS Potent 309H, who would be a notable bull at any sale.

At PLCC, we strive to meet our customers' needs in any way we can. We stand behind our bulls 100% and we do our utmost to help a customer if ever there is a problem. We encourage you to come to our open house, but feel free to come to the farm anytime. We are very proud of the mothers and feel the cow behind each bull is as important as the bull himself. Give us a call or email to discuss your breeding needs.

**Homo Polled, Non diluter** When we are sourcing herd bulls, it is hard to find everything you want in a herd sire. When we came across Lethal Dose, he checks almost every box. We've both commented how much this son reminds us of his sire. This bull is chock full of muscle, he's deep bodied and soft made, has a heck of a hind quarter and a presence that makes you stop and look at him every time. We have been excited about this fella for quite some time and have watched him outpace his contemporaries from mid-summer on. His adjusted yearling weight is at the top of the pen and he's gained 4.5 lbs/day since weaning. He's a heavy haired bull that has that deep red color that we all want in our offspring. His dam is a favorite cow that goes back to the great CG Opal 652S cow and she also has a shot of the Doll family for some extra maternal. Her udder is well attached and very square. This is her third bull to make the bull pen and I can't wait to see what her next son looks like. We are excited to use this bull in our program this spring.

BJL LETHAL DOSE 53F Sire of Lot 1

**Homo Polled, Non diluter** This ET son of Captain Blaze is the red son that I have been waiting for. His 680S dam was flushed to Blaze a few years back and the first go around we got 8 black heifers and 1 black bull, but this time we finally got the red one. He is soft sided and has that good Blaze moderate birth weight. He is super deep and hairy, has a nice head and shoulder and is very fluid in his joints – it really is a treat to watch him on the move. His dam is a tanky cow that has been an excellent producer – she has sold 2 daughters through the Pembina Triangle sale to Firdale Simmentals and Brett Vincent, another daughter to Darren Howden and 3 sons through our bull sale to Flying S Ranch, William & Cory Madziuk and Cloet Farms. This bull is a tremendous individual that must be looked at by serious breeders of red cattle.

**PLCC 906F** Full brother to Lot 2 sold to Cloet Farms

**Homo Polled, Hetero Black** A beauty of a black bull with that "slash" of a blaze that angles across his face. This bull has presence in the pen with his flawless profile and muscle expression. These Blaze sons are a real pleasure to raise. Blaze's calving ease and growth combined with the maternal strengths of our Hard Rock daughters make this bull something special. He was the top bull for adjusted weaning and yearling weight in his contemporary group and he has a great set of EPD's. The full brother sold to Lazy Bar B in last year's sale - they used him in the heifer pen and have been more than pleased.

This twin is a solid black son of Blaze that combines everything you need – calving ease, performance and milk. After his modest start, he gained 4.13lbs/day since weaning and has grown into a very balanced bull that puts it all together.

PLCC 3121F full brother to Lot 4

**Homo Polled, Homo Black** This is an impressive bull and his dam is equally impressive. He is very soft made, with loads of muscle in an attractive package. His dam has a flawless, milky udder and she is a cow that needs to be seen to appreciate her capacity and thickness. Once again, another Blaze son with complete EPDs and an adjusted yearling weight that was the highest in his contemporary group. The Blaze cattle have so much calving ease bred into them, but I'm always blown away at the performance they exhibit...they truly are curve bending cattle. This bull gained 4.21 lbs/day since weaning and hasn't looked back. The value from his blaze face is an added bonus.

**Homo Polled, Hetero Black** A soft sided bull that moves like a cat, this guy will go on to sire thick, attractive calves. His dam is proving to be an elite cow in our herd – she raised our Hot Iron son to sell this year, as we no longer run the bull, but he is a standout in his own right.

PLCC 610G Maternal brother to Lot 6

high selling bull last year to Corrie Martens and she also sold her only other 2 sons to Doug Poschenrieder and Van Buuren Stock Farms. We have kept one excellent daughter and her only other daughter was sold to Stan Enns at our female sale. This is the only Hot Iron son to sell this year, as we no longer run the bull, but he is a standout in his own right.

**Homo Polled, Hetero Black** A bull whose mother I love – she is as moderate, square and tanky a cow as I've ever seen. We've kept 2 daughters as replacements and sold a Vision daughter to Sydney deKoning through the Pembina Triangle sale. She's also sold 2 other bulls to Murray Smyth and Miles Pederson, this cow really has been a no miss cow. This bull has that special black and white look that sets a group of calves apart from others. He is extremely moderate and could have the biggest top and hip in the pen and has a bomb proof disposition just like his mother. If you are looking to bring down frame, add a splash of white, add docility and thickness, then look no further.

**PLCC 50G** Maternal brother to Lot 7

**Homo Polled, Hetero Black** A twin to the bull above, there is a lot of fertility in this cow family. His dam always breeds back first cycle and she has a near perfect udder. Hannibal has been a favorite from birth, you won't find a quieter bull. A striking blaze face that will add value to his calves, he is also one of the longest bulls in the pen which only makes you money. He should sire the right kind with the right look.

**Hetero Polled, Non Diluter** Consistent is the way I would describe the mother of this bull – she has had 4 calves off of 4 different sires, all of them bulls with an average birth weight of 81 lbs and all of them have gone through this sale to Corrie Martens, Josh Grift and Moosebuilt Simmentals. Have a look at this guy's EPDs...they are tremendous. Top 20% for calving ease, top 25% for birth weight, top 10% for weaning weight, top 10% for yearling weight, top 40% for milk and top 15% for maternal calving ease. His curve bending genetics are proven and the key to profitability. This is a no miss bull, he walks and talks like a real breeder.

**Hetero Polled, Hetero Black** A long spined, black bull with tons of hair. A lot of volume in this bull, tons of masculinity and good testicle development. His dam raised an excellent Blaze son last year that sold through this sale to Miles Pederson.

LPKN 1278G Maternal brother to Lot 13

**Homo Polled, Non Diluter** A bull with a masculine presence, he has shown the most raw performance of all the bulls. A dark red bull with a touch more frame and length, his dam is a tremendously milky High Roller cow. She sold a son through this sale to Plett Stock Farm. His EPDs for growth and milk are dead on – top 3% for weaning weight, top 10% for yearling weight and top 30% for milk.

**Homo Polled, Hetero Black** One of the youngest bulls in the sale, and yet a bull that has really grown into himself. He's got a big hip and top, and lots of rib shape, all wrapped up in a super stylish package just like we expect from our Ripcord sons. El Tigre on the dam's side really adds to this bull's performance.

**Homo Polled, Non Diluter** We really like these Ripcord calves for their dark red color, length of spine, thickness and capacity. This stout made bull comes from a deep bodied easy doing cow who is very hard to fault. She is a full sister to the dam of Lot 18 so on paper, these bulls are full brothers also. The dam has had one daughter, who also has a bull in the sale with her first calf, Lot 22.

**Homo Polled, Non Diluter** A dark red bull that is a well balanced, thick, beef machine. A big topped, square hipped bull that patterns well. He has that hair that pops and a touch more bone to make calves that are extra attractive. A bull that is also closely related to Lot 19 and Lot 18 as they all belong to the "35" cow family, it's easy to see the quality they exhibit. This bull has very strong growth and milk numbers, and ranked second in his contemporary group for weaning weight.

**Homo Polled, Non Diluter** These are the first sons to sell off of our calving ease sire, Triple Play, who we purchased with Triple R Simmentals. He truly calved like a dream, we never assisted a single calf and boy did they grow afterwards. The dam of this bull is a maternal sister to Lot 19 and is part of the "35" cow family, who has 4 bulls in this sale. The EPD's on this bull are flawless, top 2% bull to use on heifers and sleep easy while they calve.

for calving ease, top 10% for birth weight, top 30% for weaning weight, top 30% for yearling weight, top 40% for milk, and top 2% for maternal calving ease. Should be a bull to use on heifers and sleep easy while they calve.

**Homo Polled, Hetero Black** Our only black son off of Triple Play, who we couldn't be happier with. He calved easy and the calves were vigorous at birth. The dam of this bull comes from an up and coming cow family that stems back to an X-T cow that we purchased at Simmsational that is proving to be a very low birth weight cow family. The bull's EPDs are excellent, top 1% for calving ease, top 10% for birth weight and top 1% for maternal calving ease.

**Homo Polled** A long sided, very smooth bull off of a good, Captain Blaze daughter. Her dam has a bull in this sale, Lot 31as well as her sister, Lot 27. He was born at 278 days and you will drive the wheels off your truck to find a bull for your heifers that will calve like this guy. His EPD's rank top 1% for calving ease and top 3% for birth weight, top 30% for milk and top 1% for maternal calving ease. Don't overlook this one.

**Homo Polled, Non Diluter** One of our favorite calving ease bulls – ultra low birth weight from a beautiful first calf heifer who has a birth weight of 65 lbs herself. We have never used a walking heifer bull that has been as consistent as Triple Play. They calved easy and bred back right away – the key to having a profitable heifer pen. This bull ranks in the top 1% for calving ease and birth weight, top 30% for milk and top 2% for maternal calving ease.

He is sure to add some chrome to your calf crop along with performance. His ADG after weaning was 4.58 lbs/day and he ranks in the top 3% for weaning weight and the top 1% for yearling weight.

# TRIPLE R SIMMENTALS

Rick Dequier • Roland & Yvonne Dequier  
Darrell & Jacquie Warkentin • Janessa Warkentin  
Haywood, MB • 204-771-0280

From all of us at Triple R, welcome to the 2021 OPT Bull Sale which will mark the 5th with the Collins & Perkins crew. Extremely blessed to be partnered with such great families. Though the sale location and sale date may have changed, you can bet the quality of the offering has not. Our offering is diverse with a nice blend of calving ease prospects to go along with a large selection of performance driven beef bulls. After securing a semen package on SVS Brooks 669D in the spring of 2019 we eagerly anticipated the 2021 OPT Bull sale. He lived up to our expectations and his sons will be our features. Dark red, heavy haired, long bodied and nice muscle shape. The females in our heifer pen are outstanding. Buy his sons with confidence. This year's sale will also be the first sons off the Muirhead Triple Play bull we own in partnership with our friends at Perkin Land & Cattle. Calving ease numbers in the top 1% off the breed, Milk # of 33.5 along with a scrotal of 45 made him a very valuable addition to our programs. We have an excellent heifer bull along with 2 power bulls in the offering.

We invite everyone to view the bulls on the farm before the sale. If you cannot make it sale day we will gladly assist you with your purchase. As always the sales crew at Transcon have toured the bull pens and are very familiar with each of our programs. Check DLMS website for bull videos.

Sincerely, Rick

**HOMO POLLED** A bigtime Herdbull here with our signature disposition! Trademark SVS Brooks calf – heavy haircoat and a deep red colour. Carries his muscling deep into his flank with a big wide hip and is as long a bodied calf we have ever raised! Blackout females year after year bring in our top bulls. The Black Velvet cow will be our next flush cow this spring as she has had numerous feature bulls in our past bull sales to Black Diamond, Wayne Dunning, Greg Dunning and our feature 2019 OPT bull to Corey Desrochers and this might be her best calf yet! Gestation: 287 days

SVS BROOKS 669D  
Sire of Lot 33, 35, 36, 37 & 38

**HOMO POLLED/  
HETERO BLACK**

A calf that has had that Herd bull look for a very long time. Stout made with a ton of muscle and depth and a huge wide hip. Nice big feet and very agile for a guy this size. His dam RRR 25Y, another Blackout daughter, is easy to pick out and traces back to some of the most elite females in our herd. Triple Play was mainly used as a calving ease specialist but he also crossed very well with high performance females. 25H will be one of the stoutest, soggiest bulls you will find all spring. Don't miss him sale day! Gestation: 292 days

**HOMO POLLED / HETERO BLACK** A big hipped, long bodied and high performance Brooks embryo calf out of our gorgeous Poker Face show cow, Tri-R Ms Baby Spice 19B. 19B is one of our best young cows, perfect udder, extremely fertile and powerful. Combining Brooks and 19B will leave you with some exceptional females. Maternal brother was very popular at last year's sale and lead off the black section to Tim McCannell, Pierson, MB.

**HOMO POLLED / HETERO BLACK** A flush mate to RRR 2H with a different profile. Deep bodied and stylish bull with lots of eye appeal who comes with a very balanced set of EPDs, a milk number of 31.9 and top 15% for both weaning and yearling weight. Outcross black genetics combining Brooks with Poker Face.

**HOMO POLLED** A dark red, smooth made Brooks son out of a top end Red Summit first calf heifer - two sires that we have had very good luck using on first calf heifers. He is a calf who gets noticed with his sharp profile and eye appeal. His dam is a maternal sister to our Poker Face flush cow, RXR 19B, and is a daughter of another exceptional Blackout cow, RXR 2Y who has also had many real good sons sell through this sale. We are very impressed with Brooks' calving ease and the vigor the calves exhibit, up and sucking within minutes.

Gestation: 286 days

## TERMS & CONDITIONS

**TERMS** The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

**BID** Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**SALES TAXES** Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

**DISPUTES** In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**INFORMATION SUPPLIED** The information contained in this catalogue is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Keltey Whelan Designs assume any responsibility if the information supplied is not accurate.

**ANNOUNCEMENTS** from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**SHIPPING** Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**BREEDER'S GUARANTEE** As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

**EXCEPTION TO GUARANTEE** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**HEALTH** It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**TRANSCON LIVESTOCK CORP. IS AGENT ONLY** It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller. The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

**Todd & Danna Collins**

204-823-1434 or 204-242-4522 • oakviewsimmentals.com

Welcome to the 2021 Edition of the Oakview, Perkin, Triple R Bull Sale. We are proud to be hosting the sale on our farm for the first time and honoured to have such great friends and partners to work with in the Perkin and Triple R families.

We feel that our red bulls are the strongest most uniform group we have ever raised. The SVS Betts group of 10 bulls lead off the offering. These bulls are impressive to say the least! They are extremely thick, with exceptional depth of body and hip and quarter that is second to none. Furthermore, they all have that same eye-catching presence and masculinity that demand your attention. The Lieutenants offer an easy calving option with lots of shape and strength through the loin. This year we have 3 bulls

that are direct sons to bulls that we have raised and are quite proud of the stout, good haired long spined bulls they have produced. Rounding out the offering are two exceptional performance Current Affair sons that exhibit incomparable rib shape and natural muscling.

The full blood pen is packed full of thickness and muscle expression. This year we have the first calf crops off of both JNR Cashmere and our Blush Rose Rocket bull. The JNR Cashmere bulls are similar in their make up. They are stout with great hair, lots of pigment and are packed with muscle. The Rocket calves have extra depth of body, are cherry red with phenomenal pigmentation. The first calf heifers did an amazing job on their Guerrero sons who have brought the calving ease potential to the table. These bulls have smooth front ends, low birth weight and lots of hip. The lone Metro son in the sale is one you won't want to miss, he's a very complete bull that will have a lot of admirers.

The bulls will all be penned and ready for viewing on Friday March 12th allowing the entire offering to be viewed together in the days leading up to the sale. As always, prior viewing of the Oakview bulls can be done at any time at your convenience, just give us a call.

We look forward to hosting everyone on March 15th! For those unable to attend feel free to stop in ahead of time, view the bulls' videos online, and bid through DLMS online or one of the professional Transcon crew. Bull videos available at [www.oakviewsimmentals.com](http://www.oakviewsimmentals.com) - Todd, Danna, Brooke & Hayden Collins

**Homozygous Polled** As you flip through the next couple pages you are going to notice how similar the SVS Betts group of bulls are. They are all stamped with the same huge quarter, depth of body and tremendous spring of rib combined with extra base width and loads of hair. They all have that same presence that demands your attention. OVS 37H is a bull that has been turning heads since summer. He is a very complete and balanced bull that has everything going for him. He's Cherry red with lots of testicle, is crazy thick and has exceptional performance EPD's. His Red Whiskey dam is a moderate young cow with a great udder. Oakview Hustler is one you aren't going to want to miss sale day, he's something special.

SVS BETTS 808F Sire of Lot 45 -54

**Homozygous Polled** Oakview Huntly has exceptional rib shape that we all desire. This bull is extremely soggy made while still being clean fronted and smooth. He's as deep as he is wide, we really can't fault this bull. You need to get in behind this bull to really appreciate him. His Red Mountain dam has consistently produced highly desirable calves, with daughters working at Blushrose Simmentals and Crowe Brothers.

**Homozygous Polled** Oakview Hulk, who we nicknamed the Body Builder has the most extreme quarter in the pen. You truly have to see this bull in person to appreciate the thickness and depth he possesses. The Hulk is another solid red SVS Betts son with a small head and clean front end. He is packed with muscle and finesse that is hard to beat. He's impressive from every angle, a bull we truly admire. OVS 193B is a sound young cow that has two excellent daughters in our herd. If you are looking to add thickness to your calves, here's the bull for you.

**Homozygous Polled** The Betts x Wellington cross screams performance. The consistency of the Betts paired with the intense dark red of Wellington and his performance present you will a powerhouse herdbull. Harrison is out of a heifer we purchased from Week's Simmentals as an open heifer who developed into a big powerful cow. We lost her this summer but her legacy lives on in our herd as well as those of Rob Milliken and Dennis Derkson who bought a heifer and bull respectively in past sales.

**Homozygous Polled** Oakview Hurley follows the same phenotypic characteristics as the rest of the Bett's group with one interesting twist; calving ease. Here is a bull that boasts overall thickness, tremendous depth of body and a huge loin, but combines it with unbeatable maternal calving ease traits that put him in the top 5% of the breed for calving ease. With a 94lb birth weight on a mature cow he's the best of both worlds.

**Homozygous Polled** A couple years ago at the Pembina Triangle Female Sale, Brooke fell in love with a stout and powerful dark red heifer with the sweetest disposition. That day Brooke bid on and bought a heifer for the first time, TWL Fancy. She decided that Lieutenant would be a good match for her first calf, and all I can say is that girl has an eye! Lieutenant is the bull we bought from Mader Ranches a few years back for \$33,000 and he has worked well in both the heifer pen and with cows. Hershey is the whole package. He was born at 78 lbs at 278 days gestation, he's the darkest of reds, and he's as wide as he is tall with a huge barrel. Hershey is smooth moving with a big quarter and lots of testicle. Check out the EPDs there is sure a lot of green there!

**Homozygous Polled** Hawk is a solid red Feb born bull that stands right with the early January bulls. He is a solid red bull that exudes thickness and muscle shape. Deacon is a bull that we retained for ourselves and used mostly on our commercial herd. He produces stout eye catching calves. OVS 156B is among our favourite cows. She is a feminine cow with lots of muscle shape and natural thickness. She has 2 females working in our herd in addition to having a bull sell thought the sale last year to Don Dickson.

**Homozygous Polled** Here is a classic Current Affair bull with his massive top, tremendous rib shape, great hair and explosive quarter. The catalogue picture does not do this bull any justice, he's truly impressive. Honky-Tonk is out of a beautifully udder easy moving first calf heifer who put everything into her calf. Oakview Faye combines performance from KOP Bengie 6P with the smoothness and maternal calving ease from Outlaw. Here is one of the highest performing bulls who's near the top of the pen at every weigh-in. After using Current Affair for a number of years we still love the shape, muscle expression, docility and long-term impact he has had on our herd.

**Homozygous Polled** Rounding out the red offering this year we have another stellar Current Affair son. Here's a bull who could quite easily make himself comfortable in a heifer pen. He boasts a 13.6 for calving ease along with his 88 lb birthweight. On the top and bottom side he has the two bulls that we have confidently used on our red heifers for a few years. Here is a bull with very clean lines, a smooth shoulder and a small head. He's long spined with a deep set quarter.

**Polled Full Fleck** Oakview Hat Trick is a top contender for our pick of the fullblood pen. Here is a really complete bull that is destined to be a cow maker. He has high EPD's for milk and comes from a heavy milking sound uddered cow. Hat Trick is a big goggled bull that looks good from every angle. He's got a strong top, big barrel and a thick square quarter. Cashmere is a homozygous polled bull that was the high selling bull from JNR farms in their 2019 bull sale. We were fortunate enough to secure a semen package on him and are very excited to be able to sell some of his first calves.

**JNR CASHMERE**  
Sire of Lot 71-74

**Polled Full Fleck** Oakview Harvey is out of one of our favourite young Full Fleck Cows. Oakview Dixie is the epitome of what we strive to produce in a cow. She's extremely thick, heavily pigmented, Liver Red cow that strides out on perfect feet and has an udder to die for. Dixie comes from the strong Pixie cow family that we have so much confidence in. Harvey clearly inherited the liver red colour, heavy pigmentation, long spine and overall thickness that we've come to expect from Dixie. Here is a bull that will add style and pounds to your cow herd.

**OAKVIEW DIXIE 21D**  
Dam of Lot 72

thickness. Fern was a heavy milking cow who passes that trait on to her offspring. We currently have 5 Fern daughters who are all stamped with the same style and thickness in addition to selling one this fall to Wilcox Simmentals & Alliance Simmentals. She has been equally as consistent with producing highly sought-after bulls. Highstakes in a polled full fleck bull with lots of quarter and a big top. Here is a bull that will add length of spine and milk to his daughters.

Hickory is a very well-rounded bull who will sire calves that flesh up easily and push down the scale. Hickory matured early and screams herd bull. Here we have a herd sire in the making that has big goggles, pigment down to his hooves and is squarely made. Hickory has a smoking pedigree if you are looking to improve udder quality and milk in your herd. The matrons MFI Flora, DLH Miss Pixie and OVS Sadie are all well known for having exceptional udders in addition to being powerful fleshy cows.

### Full Fleck – Non Diluter

Everyone has been Holdyn' out for a good Metro son, and here he is! Holden was born at a modest 80 lb weight and backed by not only the calving ease of Metro but also Bar 5 Benz on the maternal side of the pedigree. Furthermore, to his calving ease he also has performance bred into him with Romano and Jeremiah. He is out of a first calf heifer who did a stand-up job bringing home a fleshy and eye catching heavily pigmented bull. Here is a breed leader for milk. There aren't a lot of direct Metro sons out there anymore and those who have used a Metro in the past still love the females they produce.

**Polled Full blood- Non Diluter** Oakview Helix is an eye-catching bull that has been gathering attention since early summer. The overall depth of this bull and the way he carries down into his flank and square quarter are quite exceptional. Here is a bull that is smooth shouldered with a strong top, good feet and unique pigmentation. Helix is the lead off bull out of BRSF Rocket who we purchased from BlushRose Simmentals. Rocket has stamped all his calves with lots of pigment, lots of cherry red hair, and clean front ends. Maternally Helix goes back to the FGAF Precious Thing cow who was one of the thickest Full Fleck cows around.

**Full Fleck** The majority of our first calf heifers were bred to Guerrero the past 3 years. I don't think we have had to assist in a single one of their births. Guerrero has proven to be an easy calving bull for us. We also admire the muscle shape, masculinity and overall look of the bulls. Hendrix was born at 78 lbs from a moderate framed first calver. She milked hard and has a

perfect udder. We feel like Hendrix would work well on heifers with a calving ease EPD of 11.3 with the added bonus of boasting a huge 41.3 milk EPD.

**Full Fleck** Here is the first bull we've sold out of our powerful Slapshot herd sire. Slapshot was an extremely soggy made yearling with explosive growth and muscle expression. The calves out of him are all stamped with the same look. The majority of his first calf crop were heifers so unfortunately, we only have one of his bulls in the sale. His calves have

mellow dispositions, a soggy made style and strong top. Harvey is a bull to breed to your cows to add performance to your herd. Harvey displays extra length of spine, great hair and lots of natural muscling. Again, we see the impact of the MFI Flora cow family as the picture-perfect udders are handed down the line.
